

ActionFront Partner Data Recovery Techletter

Get more from the ActionFront Reseller Program!

Starting July 25, 2006, your next reseller case submission can earn you a **FREE Seagate Pocket Drive!**

As our way of thanking you for your business, all authorized ActionFront Resellers will be eligible to receive a free 5GB Seagate Pocket Drive with their next submitted case.

To take advantage of this offer just send in a qualified reseller case that results in a paid recovery. Then, on top of your usual ActionFront Reseller discount and all other reseller benefits, you will also receive a Free Pocket Drive!

This promotion is available to all ActionFront Resellers in the US and Canada from until January 1st, 2007. Each reseller is eligible to claim one drive during the promotional period. You will receive your pocket drive upon the successful completion and invoicing of your customer's case.

For more information, please visit: <http://www.actionfront.com/pocketdrive.aspx>

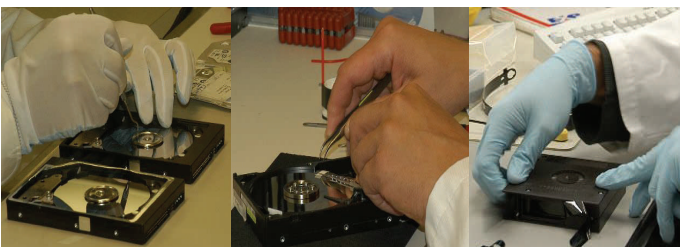

The ActionFront Advantage: Critical Response Services

The ActionFront Critical Response Team has often been credited with providing the highest quality data recovery service in the industry.

With decades of technical experience behind them, the ActionFront Critical Response team works around the clock until a problem is solved and a client's valuable data is returned. The team specializes in recovering data in those instances where time is of the essence and only the best will do.

The team provides both in-lab and on-site service almost anywhere in North America.

Reseller Profile

Telecom Computer - *ActionFront Reseller*

"Having a partner like ActionFront makes it a breeze to meet client needs," says Gary Archer, manager of technical services with Telecom Computer.

The company has been an ActionFront Reseller for several years now, and has truly seen the benefits of the program.

"ActionFront is reliable and really easy to do business with," he adds.

Telecom Computer is celebrating its 20th year in business this year. The Burlington, Ontario-based company provides a wide range of IT solutions for their customers; specializing in everything from hardware repairs, network security assessments, network implementation, and enterprise storage management, among other services.

"We offer small company friendliness with enterprise solutions," says Archer.

The ActionFront Reseller Program is one way that Telecom Computer goes that extra mile for their clients, providing them with superior quality professional data recovery services that suit their needs.
